EDUCATION

National Textile University

Bachelor's of software engineering

Faisalabad, Pakistan

May 2026

- **Concentration:** Full-Stack Web Development, Agentic AI & Automation, Generative AI, Software Architecture & System Design, Data Structures & Algorithms
- **Related Coursework:** Computing in python/javascript, LangChain, LangGraph, Object Oriented Programming, Server-Side Development (Node.js / Express / APIs)

EXPERIENCE

Three Arrows Technologies

Web Development Intern

Sitara Techno Park, Faisalabad

July 2025 - Sep 2025

- Developed full-stack applications and RESTful APIs using Next.js, React, Node.js, Express, and MongoDB, integrating backend services and database workflows to deliver maintainable business solutions.

Quantum Byte Solution

Associate Software Engineer

D-ground, Faisalabad

Jan 2026 - present

- Engineered AI-powered and full-stack applications using Next.js, TypeScript, Node.js, Python, LLM APIs, and databases, integrating intelligent automation, APIs, and production-ready software workflows.

PROJECTS

AI Sales & Lead Qualification Agent

AI development

Quantum Bytes Solution, Faisalabad

Feb 2026 - Apr 2026

- Built an AI-powered lead qualification system using Next.js, Python, LangGraph, OpenAI/Gemini, PostgreSQL, Redis, and Docker to automatically qualify leads, answer customer queries, update CRM records, and trigger follow-ups, improving lead response and sales workflow automation.

Elite Fusion Trading

Fintech development

Quantum Bytes Solution, Faisalabad

May 2026 - Aug 2026

- Built Elite Fusion, a multi-panel trading platform with client, admin, and CRM interfaces serving 500+ users. Developed a TypeScript/Express, Prisma, and PostgreSQL backend with Socket.IO for real-time Binance price updates, TradingView charts, advanced order types (limit, stop, OCO, trailing), copy trading, AI agents, KYC, crypto payments, 2FA, and RBAC. Dockerized the application for consistent deployment and scalability.

ACTIVITIES AND LEADERSHIP

Software Engineering Society.

Vice President

National Textile University, Faisalabad

Jan 2022 - Jan 2023

- Led software engineering society by organizing events, workshops, and projects, enhancing member skills and engagement.

SKILLS

Programming: *JavaScript, TypeScript, Python, Node.js, React.js, Next.js, Express.js,*

AI & Automation: *Agentic AI, Generative AI, AI Agents, LangGraph, OpenAI API*

Why I'm the Right Fit

I build fast, scalable, and user-focused web applications that solve real problems. With a strong command of the development and a **mindset for continuous learning**, I bring not just code—but value—to every project. Let's build something impactful together.
